ARR & Tariff Filings Proposals of Retail Supply Business for FY 2023-24

and

Power Purchase True-Ups for FY 2016-17 to FY 2022-23

Response to the Objections of Sri. Venkatesh Sangam, INFOSYS

S.No.	Summary of Objections / Suggestions	Response of the Licensee
1	As a consumer of green power through green tariff mechanism, we request TSSPDCL to issue us Green Energy Certificate on monthly basis clearly mentioning the green attributes belonging to the consumer. This will set the ownership of green attributes with consumer and ensure clear accounting and compliance with auditing and carbon neutrality.	Disclosing the details regarding the source(s) by the TSSPDCL via monthly bills/ agreement is very difficult. Hence, Green Energy Certificate can be issued for the energy billed with Green Tariff only, that too once in a year.
2	TSSPDCL to upfront declare the green attributes of power consumed under green tariff mechanism belonging to the consumer during the start of supply of power by confirming the source and quantum of purchase of green power by TSSPDCL and then may share the certificate as per its accounting protocol.	Upfront declaration of the power consumed under Green Tariff belonging to a consumer is very difficult owing to the nature of power generation by various RE sources and large number of such renewable energy sources with which the Discoms has signed PPAs.
